## EXPERIENCE

### Centenary Summer Scholars, Centenary University

July 10th, 2016 - July 23rd, 2016

A pre-college program where I completed a 2-week bootcamp of computer programming. It consisted of workshops that included Python, HTML, CSS, and Web2Py framework.

### MHacks - Hackathon, Detroit Michigan

October 7th, 2016 - October 9th, 2016

A 36 hour hackathon where I competed against more than 1000 other competitors in a programming based competition. I attended seminars by Microsoft and other companies to learn about how to be a leader and how to make successful projects. I was also surrounded by college students and tech industry leaders.

## EDUCATION

### Williamsville North High School, Williamsville, NY

2015 - 2019, expected High School Diploma in 2019

10th Grader at Williamsville North High School. Located in Williamsville, NY 14221

## PROJECTS

### Techie — <http://techiecode.info>

Techie is a website I created on my own for SUNY Buffalo State on June, 4th 2016. Its purpose is to educate people on the power of code. It consisted of HTML, CSS, and JQuery.

### NorthETED — <http://northeted.tech>

NorthETED is a website that I built for my school engineering and technology program. It overviews the purpose of TSA and what we do.

### ShortCuts — A Web App (in progress)

Shortcuts is a web app that allows users to program hotkey combinations on their computer to do specific actions such as opening Youtube or Spotify. This app is created with HTML, CSS, Python, and Web2Py.

## SKILLS

HTML/CSS

Python

Javascript/JQuery
